

PRODUCT DISCONTINUATION

#PD-IF-J6JC-09

IF	Product Line Code	Type of Change	Action	Date of issue
IF	167	Discontinuation	Notify Distributors and Field	1/11/2010

Phoenix Contact's factory has announced the following product(s) is going to be discontinued. Existing specifications will be met or exceeded. Technical support of the discontinued product will continue, as required. Please review this document and take the appropriate action with respect to your existing inventory and ordering replacement parts.

Reason for Discontinuation:

In the continual development and improvement in power supply technologies, Phoenix Contact introduced the second generation of STEP power supplies in July of 2008. Therefore, we need to now discontinue the first generation of STEP power supplies.

The second generation of STEP power supplies are designed to be a more robust, reliable and in some cases, a smaller footprint power supply.

The information contained below outlines the replacement parts for the first generation power supplies. Please inform your customers of this product change. If there are any questions, please contact Phoenix Contact, Inc.

Warranty Information:

Product purchased up to April 30, 2010, will remain under the power supply warranty. In the event that a power supply needs to be replaced under warranty, it will be replaced by the equivalent product in the 2nd generation product range.

Stock Status

Can existing stock still be used?	Yes
-----------------------------------	-----

Is mixture of stock acceptable?	Yes
---------------------------------	-----

Transaction Dates:
