**FOR IMMEDIATE RELEASE**

## **Sager Electronics Receives AS9120 Certification** **Quality Management System Meets** **Global Standards of Military / Aerospace Industry**

MIDDLEBOROUGH, Mass. – February 15, 2010 – Sager Electronics, the electronic distribution industry's leading privately held, employee-owned company, today announced its certification to the comprehensive military and aerospace quality standard in the industry, AS9120.

The new standard, AS9120, was designed specifically for organizations that resell, warehouse and distribute parts to military and aerospace customers. AS9120 specifically addresses custody, traceability, control and availability of records, and elevates a company's quality management system to the global standards adopted by the International Aerospace Quality Group (IAQG).

"Being certified to AS9120 positions Sager to meet the strict process and product requirements of military and aerospace customers," said Merrill Mahoney, executive vice president for Sager Electronics. "It expands our reach and further enhances Sager's ability to provide a high level of service to the military and aerospace market."

### **About Sager Electronics**

Headquartered in Middleborough, Massachusetts, and grounded in a century-long tradition of innovation and service, Sager is an employee-owned distributor of electronic components from leading manufacturers worldwide.
